-

>PROFESSIONAL EXPERIENCE

- EveryTeam | Full Stack Software Engineer | San Francisco/Remote** 2018
- Shipped full stack features such as onboarding users and generating onboarding tasks for 3 different profiles of users by using Javascript, GraphQL, Relay, Flow, Go and PostgreSQL.
 - Placed tags in code to analyze user behavior from more than 400 users.
 - Fixed incorrect SQL queries such as one that wasn't showing unviewed docs in 'most viewed' sort and was showing duplicate docs for 'recently viewed'.
 - Added functionality for Airtable embed and Figma embed using API docs.

- Groupmuse | React Native Developer (Contract) | San Francisco/Remote** 2018
- Engineered a login flow for a mobile classical concert scheduling platform for a user base of more than 100,000.
 - Created dynamic screens using React Native components, Redux, and Thunk to make AJAX calls to Ruby on Rails server and react-native-router-flux to handle navigation.
 - Developed flexible user login experience saving users 33% of time spent logging in by using react-native-fbsdk to enable login through Facebook.
 - Wrote snapshot tests for 100% coverage of components and unit tests for 83% coverage using Jest and Enzyme.

- Course Report | Full Stack Developer (Contract) | Remote** 2018
- Developed email templates for admins to onboard new team members using Ruby on Rails and PostgreSQL for Course Report website, which has over 400,000 visitors monthly.
 - Enhanced UI and resolved backend and front end issues on codebase with 70+ models, 75+ controllers, and 200+ views.
 - Upgraded research center to enable users to update their profile, save favorite schools, and compare up to 4 favorite schools using JavaScript, jQuery, AJAX, and Sass.
 - Worked on feature that decreased page load time by 60% using JavaScript, Infinite Pages, Kaminari, and Tocify to allow infinite scrolling through school news stories.

- Bayworks Tile & Stone | Digital Marketing & Business Development Executive | Hayward/Remote** 2013 - 17
- Collaborated with development team to create website after gathering over 70 customer reviews and over 250 photos of work done.
 - Developed marketing material and negotiated running deals with companies such as Angie's List, Yelp, and Home Advisor, increasing of sales from \$600,000 to \$1.3 million.
 - Managed customer experience with company and asked for reviews with 90% success rate leading to company ratings of 4.5 - 4.8 / 5 across multiple websites.

- Yanapuma Foundation | Assistant Administrator & Marketing Associate | Cuenca, Ecuador** 2014 - 15
- Spoke Spanish at an advanced level to communicate with employees and project directors and supervised the immediate running of a Spanish school.
 - Created marketing material leading to full teaching calendar and 30% increase in profits by final month of job.
-

>EDUCATION

- B.A. Psychology, UC Berkeley (High Honors Awarded for 3.927 GPA & Honors Thesis Completed)** 2012
-
